12. Ashes sanctums

- 12.1. The Sanctum 2000 Vaults may be leased for an initial period of 10 or 20 years. The lease agreement contains all the terms and conditions therein. The lease may be extended for a further 5/10/20 year's period at the end of the initial lease. If the lease is not renewed the cremated remains will be removed from the vault and may be collected by the family.
- 12.2. The Vault remains the property of the Council throughout the lease period, but the inscribed tablet becomes the property of the applicant. The applicant is responsible for the maintenance and upkeep of the vault and plaque. At the end of the lease period, if the lease is not renewed, the tablet will be removed and may be collected by the applicant. Alternatively, it can be disposed of sensitively by the Council.
- 12.3. The right may be renewed on expiry of the 5/10/20 years by payment of the appropriate fee ruling at the date.
- 12.4. The vault shall be sealed with a granite tablet purchased from the Council and such tablet will be the property of the lease holder.
- 12.5. Every effort will be made to contact the lease holder at their last registered address to ascertain their wishes. The Council retain the right to strew the cremated remains and dispose of the memorial tablet should their efforts prove fruitless. The onus of

responsibility is on the lease holder to keep the Council informed of any change of address.

12.6. The above right may be rescinded at any time during the lease period of the written instructions of the lease holder who shall arrange collection of the cremated remains and inscribed tablet from the Cemetery.

12.7. It is the responsibility of the lease holder to ensure that the rights are renewed. Although the Council will endeavour to contact the lease holder before expiry of the right, no responsibility can be accepted for action taken in the absence of renewal of the right, or alternative instructions from the lease holder.

12.8. General Conditions

12.8.1. The Sanctum 2000 Vault remains the property of Aylesbury Town Council throughout the lease period, with the exception of the memorial tablet, which becomes the property and responsibility of the lease holder. The Council cannot be held liable for theft or damage to the memorial tablet.

12.8.2. The lease agreement allows up to two sets of cremated remains to be placed in the Vault, at the request of the lease holder. The placing of the cremated remains and/or the sealing of the Vault with the memorial tablet may be witnessed by family and friends.

12.8.3. The lease holder is responsible for the upkeep of the vault and plaque. Please note that dyed flowers may leave marks and it is suggested that warm soapy water or baby wipes are used in cleaning the vault or plaque as bleach and/or other chemicals may affect.

12.8.4. The Council will attempt to contact the lease holder towards the end of the lease period, therefore it is very important that any changes of address are notified to the Cemetery Office at the Town Hall.

Schedule 2 - Part I

No burial shall take place, no cremated human remains shall be scattered and no tombstone* or other memorial shall be placed in a Cemetery, and no additional inscription shall be made on a tombstone or other memorial, without the permission of the Officer appointed for that purpose by the burial authority.

No body shall be buried in a grave in such a manner that any part of the coffin is less than three feet (3') below the level of any ground adjoining the grave:

Provided that the burial authority may, where they consider the soil to be of suitable character, permit a coffin made of perishable materials to be placed not less than two feet (2') below the level of any ground adjoining the grave.

No body shall be buried in a grave unless the coffin is effectively separated from any coffin interred in the grave on a previous occasion by means of a layer of earth not less than six inches (6") thick.

When any grave is reopened for the purpose of making another burial therein, no person shall disturb any human remains interred therein or remove them from any soil which is offensive.

Every walled grave or vault shall be properly constructed of suitable materials. Within 24 hours of any burial in a walled grave or vault, the coffin, shall be -

- (a) embedded in concrete, and covered with a layer of concrete not less than six inches (6") thick; or
- (b) enclosed in a separate cell or compartment of brick, slate, stone flagging or precast concrete slabs of a 1:2:4 mix, in any case not less than two inches (2") thick, in such a manner as to prevent, as far as possible, the escape of any noxious gas from the interior of the cell or compartment.

Any person to whose order a body is buried in a grave in respect of which an exclusive right of burial has been granted shall, as soon as conveniently may be after the subsidence of the earth has been completed, cause the surface of the grave to be covered with any tombstone or other memorial in respect of which a right has been granted by the burial authority or any predecessor of theirs, or with fresh turf, or, where the burial authority permits, with such flowers and other plants, or in such other manner, as may be permitted.

Where the burial authority permits uncoffined burials, any reference in this Part to a coffin includes a reference to the wrappings of an uncoffined body.
